THE FREEDOM OF INFORMATION ACT: ENSURING OPEN GOVERNMENT IN ILLINOIS

Matt Rogina
Assistant Attorney General
March 21, 2013
Introduction

"Sunlight is said to be the best of disinfectants[.]"

Justice Louis Brandeis
The Freedom of Information Act (5 ILCS 140/1 et seq.)

- The Freedom of Information Act (FOIA) originally became effective on July 1, 1984.

- Although various provisions of FOIA had been added or amended since its enactment, there was no comprehensive revision of the Act until 2010.

- PA 96-542, effective January 1, 2010, revised FOIA to address numerous problems that had become apparent over the previous 25 years.
PA 96-542 also codified a non-judicial procedure for addressing issues concerning compliance with the Freedom of Information and Open Meetings Acts.

It did so by creating within the Attorney General’s office the Public Access Counselor, a position dedicated to resolving complaints without litigation.
The General Assembly hereby declares that it is the public policy of the State of Illinois that access by all persons to public records promotes the transparency and accountability of public bodies at all levels of government.

It is a fundamental obligation of government to operate openly and provide public records as expediently and efficiently as possible in compliance with this Act.”

5 ILCS 140/1
Definition of “Public Body”

- All legislative, executive, administrative, or advisory bodies of the State
- State universities and colleges
- Counties
- Townships
- Cities
- Villages
- Incorporated towns
- School districts
“Public Body” cont.

and...

All other municipal corporations, boards, bureaus, committees, or commissions of this State, and any subsidiary bodies of any of the foregoing including but not limited to committees and subcommittees thereof.
What is a public record?

What is a public record?

The definition of “public records” includes:

“[A]ll * * * documentary materials pertaining to the transaction of public business, regardless of physical form or characteristics, having been prepared by or for, or having been or being used by, received by, in the possession of, possessed or under the control of any public body.”

5 ILCS 140/2(c)
What is a public record?

If a public official sent or received communications on *personal electronic devices* during a meeting, those communications that pertain to the transaction of public business are public records subject to the requirements of FOIA. See Ill Att'y Gen. Pub. Acc. Op. No. 11-006, issued November 15, 2011.
What is a public record?

- FOIA does not require a public body to create records in order to respond to a FOIA request; rather a public body is required to make records within its possession or control available for inspection and copying. *Workmann v. Illinois State Bd. of Educ.*, 229 Ill. App. 3d 459, 464 (2nd Dist. 1992).
During a very long and contentious City Council meeting on a controversial housing program, two Council members begin texting each other on their personal cell phones. Several texts detail their thoughts and ideas about defunding the program. Shortly after, one Council member texts the following to other member: “I need a drink!” The two then text each other about which local hot spot to go after the meeting. The local newspaper FOIA’s the texts.

How should the City respond?
Choose your answer

Release the texts that only relate to the housing program.

Release all the texts because all communications made during a public meeting are public records and the public has a right to know where the council members go drinking after meetings.

Withhold all the texts because the communications were sent on the private devices of the Council members.
“All records relating to the obligation, receipt, and use of public funds of the State, units of local government, and school districts are public records subject to inspection and copying by the public.”

5 ILCS 140/2.5
Section 2.10 (5 ILCS 140/2.10) (West 2010) mandates that "[c]ertified payroll records submitted to a public body under Section 5(a)(2) of the Prevailing Wage Act are public records subject to inspection and copying in accordance with the provisions of this Act; except that contractors' employees' addresses, telephone numbers, and social security numbers must be redacted by the public body prior to disclosure."
“All settlement agreements entered into by or on behalf of a public body are public records subject to inspection and copying by the public, provided that information exempt from disclosure under Section 7 of this Act may be redacted.” 5 ILCS 140/2.20
“Presumption. All records in the custody or possession of a public body are presumed to be open to inspection or copying. Any public body that asserts that a record is exempt from disclosure has the burden of proving by clear and convincing evidence that it is exempt.”

5 ILCS 140/1.2
FOIA Requests

- In writing, directed to the Public Body.
- Oral requests may be honored.
- Standard form may not be required.
- Public Body may not require requester to specify a purpose, except to determine whether the request is for a commercial purpose.
- Forward immediately to FOIA officer.

See 5 ILCS 140/3(c)
A school board member submits a FOIA request to the School District for records that relate to a teacher that was the subject of an internal investigation. The investigation is now closed and no discipline was imposed on the teacher. The FOIA Officer for the District denies the request solely on the grounds that the information will be used to embarrass the teacher.

Is this response proper under FOIA?
Choose Your Answer

Yes, because the board member is being a snoop and using FOIA for a malicious purpose.

Yes, because FOIA does not allow public officials to seek information on other public officials.

No, because the District cannot withhold records solely based on the identity of the requester.
Responding to a Request
A public body must generally respond to a FOIA request within 5 business days after receipt of a written request.

The time for response may be extended for an additional 5 business days for one of seven reasons specified in the Act.

See 5 ILCS140/3 (d),(e)
If denying a request for public records, the public body shall **notify the requester in writing of:**

1. The decision to deny the request,

2. The **reasons** for the denial, including a detailed factual basis for the application of any exemption claimed, and

3. The names and titles or positions of each person responsible for the denial.
Responding to a Request

In addition, each notice of denial by a public body shall:

1. Inform the requester of his or her right to seek review by the Public Access Counselor,

2. Provide the address and phone number for the Public Access Counselor, and

3. Inform the requester of his or her right to judicial review under section 11 of FOIA.
Responding to a Request

- Failure to respond to a request within the time permitted is considered a denial of the request.

- A public body that fails to respond to a request within the time permitted but then provides copies of the requested public records may not impose a fee for those copies.

- A public body that fails to respond to the request within the time permitted may not treat the request as unduly burdensome.
Responding to a Request

- Always refer to the specific text of the pertinent exemption(s) in determining whether a record, or certain information contained in a record, is exempted from disclosure.

- A record that contains both exempt information and non-exempt information is not exempt from disclosure.

- May elect to redact the exempt information, but must disclose the nonexempt information.
To enable public bodies to maintain certain types of sensitive public records confidentially, FOIA provides a number of exceptions to the requirement that public records be made available for public inspection.

The exemptions do not, however, prohibit the dissemination of information; rather, they merely authorize the withholding of information.

The exemptions can be categorized into the following six categories:

1. Personal Privacy
2. Law Enforcement and Security
3. Educational Matters
4. Legal Proceedings
5. Internal Operations
6. Business and Finance
Information Prohibited from Disclosure by Federal or State Law, Rules or Regulations

Exemption 7(1)(a)
Information Exempt Under Other Laws

Section 7(1)(a) of FOIA exempts from disclosure:

“Information specifically prohibited from disclosure by federal or State law or rules and regulations implementing federal or State law.”

5 ILCS 140/7(1)(a)
Information Exempt Under Other Laws

- Section 7(1)(a) applies only when a law or rule implementing a law specifically prohibits the public body from releasing the information in question.
Information Exempt Under Other Laws

- The Illinois Code of Criminal Procedure (court ordered overhears, grand jury materials)

- The Illinois Juvenile Court Act (records concerning the arrest of a minor)

- The Illinois School Student Records Act (student records, parent/teacher communication)

- The Personnel Records Review Act (evaluations of employees)
Information Exempt Under Other Laws

- The Illinois School Student Records Act
  (student records, parent/teacher communication)

- The Personnel Records Review Act
  (evaluations of employees)

- The State Officials and Employees Ethics Act
  (records of any lawfully created State or local inspector general's office)
Information Exempt Under Other Laws

Records under court seal that were obtained through court ordered overhears and records that reflect the contents of the overhears, are prohibited from disclosure pursuant to section 108A-7 of the Criminal Code (725 ILCS 5/108A-7 (West 2010)). See 2011 PAC 18365 (Ill. Att'y Gen. PAC Req. Rev. Ltr. 18365, issued May 16, 2012 , at 5).

J. Edgar Hoover, 1924. Courtesy of the FBI website; version date 2006.
The confidentiality provisions of the Juvenile Court Act are intended to safeguard the privacy of a juvenile who has been arrested and is the subject of a juvenile court proceeding, with the ultimate goal of rehabilitating that juvenile. See Ill Att'y Gen. Pub. Acc. Op. No. 12-012, issued August 14, 2012.
While a general request for information that contains protected health information would be exempt under the Health Insurance Portability and Accountability Act, a request that is made pursuant to FOIA would instead be governed by FOIA.

The FOIA Officer for a Town gets a request for the personnel file of a police chief who was the subject of a sexual harassment lawsuit against the Town brought by a former employee. One year earlier, the Town entered into a settlement agreement with the employee, which contains a confidentiality clause. The personnel file includes the Chief’s contract, salary information, evaluations, and the settlement agreement.

How should the FOIA Officer respond?
Choose Your Answer

Deny everything, because its none of the public’s business and disclosure of the records would simply embarrass the Chief and the former employee.

Disclose everything except the evaluations and settlement agreement because the confidentiality clause prohibits the release of the agreement.

Disclose everything except the evaluations.
A protective order cannot be the legal basis to withhold a settlement agreement from disclosure.

Carbondale Convention Center, Inc. v. City of Carbondale, 245 Ill.App.3d 474, at 479 (5th Dist. 1993).
"Private Information"

Exemption 7(1)(b)
“Private information” is exempt from disclosure unless disclosure is required by another provision of the Freedom of Information Act, a State or federal law or a court order.

I understand that upon completion of my term of active duty I will, if qualified, be transferred to the reserve and required to serve therein for a period which, when added to my active duty service, totals 6 years, unless sooner discharged in accordance with standards prescribed by the Secretary of Defense; that I will be required to serve a period in the ready reserve which, when added to my active duty service, totals 5 years; that I may then, upon written request, be transferred to the standby reserve for the remainder of my obligated period of service. A school board member submits a FOIA request for records that relate to an internal investigation of a Superintendent that had an affair with another teacher, which resulted in that teacher getting a promotion. As a result of the affair, the Superintendent resigned. The FOIA Officer for the District denies the request on the grounds that the records are an invasion of privacy for the Superintendent.

Is this the proper response?
Yes, because it nobody’s business but the Superintendent and the teacher.

No, because the investigation relates to the public duties of the Superintendent and the public interest in disclosure outweighs the Superintendent’s privacy interest.

Yes, because the Superintendent resigned and is no longer an employee.
Exemptions That Specifically Apply to Law Enforcement or Administrative Enforcement Proceedings

Exemptions Under 7(1)(d)
Exempts information that

- Interferes with a criminal or administrative investigation
- Discloses the identity of an individual that provided information to a public body
Exempts information that

• Deprives an individual of a fair trial

• Jeopardizes the life and safety of an individual
Evidence from Leopold and Loeb case

Certain pieces of evidence, such as lab test results, financial records, and other pertinent records could possibly taint a prospective jury. 2011 PAC 17636 (Ill. Att'y Gen. PAC Req. Rev. Ltr. 17636, issued April 3, 2012, at 2).
A police department receives a FOIA request for a videotape where a murder suspect confesses to the crime. The prosecution is still pending, but the confession was recently ruled inadmissible. In the FOIA request, the requester argues that since the videotape was played in open court and ruled on, it should now be made available to the public?

How should the OAG respond?
A. Deny the request its entirety, explaining to the requester that regardless of the fact that the video was played in court, the release of the videotaped confession would deprive the defendant of a fair trial.

B. Deny the request on the basis that it would be an invasion of privacy for the defendant.

C. Release the videotape since the confession has been thrown out and has no bearing on the trial.
Under section 2.15(a) of FOIA, police departments must make arrest reports public no later than 72 hours after the arrest.

5 ILCS 140/2/15(a).
Arrest reports must include:

(i) information that identifies the individual, including the name, age, address, and photograph, when and if available;

(ii) information detailing any charges relating to the arrest;

(iv) the name of the investigating or arresting law enforcement agency;

(v) if the individual is incarcerated, the amount of any bail or bond; and

(vi) if the individual is incarcerated, the time and date that the individual was received into, discharged from, or transferred from the arresting agency's custody. 5 ILCS 140/2.15(a)(i)(ii)(iii)(iv), (v), (vi)

The purpose of the deliberative process privilege is to allow agencies to “explore possibilities, engage in internal debates, or play devil's advocate without fear of public scrutiny.”

Office Memorandum

To: DIRECTOR, FBI
From: GUTMANS, SAC, WASHINGTON

Subject: FLYING SAUCERS

Information Concerning
FLYING SAUCERS

The following information was furnished to us concerning
FLYING SAUCERS:

An investigator for the Air Forces stated that three so-called
FLYING SAUCERS had been recovered in New Mexico. They were
described as being circular in shape with raised centers, approxi-
mately 50 feet in diameter. Each one was occupied by three bodies
of human shape but only 3 feet tall, dressed in metallic cloth of
a very fine texture. Each body was bandaged in a manner similar
to the blackout suits used by speed flyers and test pilots.

According to Mr. __________, the saucers were found in New
Mexico due to the fact that the Government has a very high-powered
radar set-up in that area and it is believed the radar interferes
with the controlling mechanism of the saucers.

No further evaluation was attempted by ED_________ concerning the
above.

Other provisions and exemptions within FOIA
Section 7(1)(g) of FOIA exempts from inspection and copying "[t]rade secrets and commercial or financial information obtained from a person or business where the trade secrets or commercial or financial information are furnished under a claim that they are proprietary, privileged or confidential, and that disclosure of the trade secrets or commercial or financial information would cause competitive harm to the person or business, and only insofar as the claim directly applies to the records requested."

5 ILCS 140/7(1)(g)
Section 7(1)(h) of FOIA exempts from disclosure “proposals and bids for any contract, grant, or agreement, including information which if it were disclosed would frustrate procurement or give an advantage to any person proposing to enter into a contractor agreement with the body, until an award or final selection is made.” 5 ILCS 140/7(1)(h)
Disciplinary Cases

Exemption 7(1)(n) of FOIA (5 ILCS 140/7(1)(n) (West 2010)) allows a public body to withhold “records relating to a public body's adjudication of employee grievances or disciplinary cases; however, this exemption shall not extend to the final outcome of cases in which discipline is imposed.”

5 ILCS 140/7(1)(n)
A fire lieutenant is the subject of an internal investigation by the Fire Department for drinking during his shift hours. The matter is brought to his supervisor who commences an internal investigation. The lieutenant resigns before any discipline is imposed. A local newspaper FOIA's the City for the internal investigatory records. How should the City respond?
A. Deny the request in its entirety because an adjudication was commenced by the City

B. Disclose the records because the investigation related to the lieutenant’s public duties and the investigation did not result in a formal adjudicatory procedure.

C. Deny it because the lieutenant resigned before any formal discipline could be imposed.
Section 3(g) of FOIA (5 ILCS 140/3(g) (West 2010)) provides that “[r]equests calling for all records falling within a category shall be complied with unless compliance with the request would be unduly burdensome for the complying public body and there is no way to narrow the request and the burden on the public body outweighs the public interest in the information.”
You are the FOIA Officer for a City that has a population of more than 100,000. A civil rights group that is studying racial profiling in the City requests all speeding tickets issued since 2003. The police department informs you that on average, the City issues 3,000 tickets per year and that most tickets are maintained in paper format. The City would be required to go back and produce 27,000 tickets and then redact private information on each ticket. How should the City respond?
The City should immediately deny the request in its entirety, as the request is clearly unduly burdensome.

The City should provide all records regardless of time and expense because the public interest outweighs the burden on the City.

The City should reach out to the requester and attempt to narrow the request a more manageable portion.
Commercial Purpose Requests
Other Statutory Exemptions

- In addition to the exemptions previously noted, several existing exemptions have been revised, consolidated or deleted.
- Statutory exemptions referring to other statutes have been consolidated in section 7.5.

5 ILCS 140/7.5
“Commercial purpose’ means the use of any part of a public record or records, or information derived from public records, in any form for sale, resale, or solicitation or advertisement for sales or services.”

5 ILCS 140/2(c-10)
Excepted from the definition of “commercial purpose” are “requests made by news media and non-profit, scientific, or academic organizations * * * when the principal purpose of the request is

- to access and disseminate information concerning news and current or passing events,
- for articles of opinion or features of interest to the public,
- for the purpose of academic, scientific, or public research or education.”
The general time periods for compliance with or denial of a request to inspect or copy records do not apply to requests for records made for a commercial purpose. Such requests are subject to section 3.1 of the Act.

5 ILCS 140/3.1
A public body must respond to a request for records to be used for a commercial purpose within 21 working days after receipt. (5 ILCS 140/3.1 (West 2010).
Subject to the collection of the requisite fee (if applicable), a public body is required to furnish copies of public records to a requestor.

The fee for black and white, letter or legal sized copies may not exceed 15 cents per page. No fees may be charged for the first 50 pages of black and white, letter or legal sized copies requested by a requestor.
A public body may only charge the requester for the actual cost of purchasing the recording medium, such as a disc, diskette, tape, or other medium.

Statutory fees applicable to copies of public records when furnished in a paper format shall not be applicable to those records when furnished in an electronic format, unless the General Assembly otherwise provides.
A public record that is not in the possession of a public body but is in the possession of a party with whom the agency has contracted to perform a governmental function on behalf of the public body, and that directly relates to the governmental function and is not otherwise exempt under this Act, shall be considered a public record of the public body, for purposes of this Act.

5 ILCS 140/7(2) (West 2010).
If a public body imposes a fee pursuant to this subsection (f), it must provide the requester with an accounting of all fees, costs, and personnel hours in connection with the request for public records.

The provisions of this subsection (f) apply only to commercial requests.

5 ILCS 140/6(f)
Public Act 97-579 also created new guidelines for dealing with persons who submit frequent requests for information to the same public body, or “recurrent requesters,” by adding section 3.2 of FOIA.

5 ILCS 140/3.2
A **Recurrent Requester** (defined in section 2(g)) is a person who, in the 12 months immediately preceding the request, has submitted to the same public body:

- A minimum of 50 requests for records
- A minimum of 15 requests for records within a 30-day period
- A minimum of 7 requests for records within a 7-day period

In general, news media and non-profit, scientific, or academic organizations are excluded from this categorization.
Within 5 business days after receiving a request from a recurrent requestor, a public body must notify the requestor that:

- The request is being treated as a recurrent request,
- The reasons why the request is being treated as a recurrent request, and
- The public body will send an initial response within 21 business days after receipt, in accordance with subsection 3.2(a) of FOIA.
A public body must respond to a request for records from a recurrent requester within 21 working days by:

1. Providing the records;

2. Advising when the records will be furnished and the cost;

3. Denying the request if the records are exempted from disclosure; or

4. Advising that the request is unduly burdensome and must be narrowed.
Unless the records are exempt from disclosure, a public body shall comply with a request from a recurrent requester within a reasonable period considering the size and complexity of the request.

5 ILCS 140/3.2(c)
A person whose request to inspect or copy a public record was treated by the public body as a request for a commercial purpose under Section 3.1 of FOIA may file a request for review with the Public Access Counselor only for the limited purpose of reviewing whether the public body properly determined that the request was made for a commercial purpose.

5 ILCS 140/9.5(b)
Attorney’s Fees

If a person seeking the right to inspect or receive a copy of a public record substantially prevails in a judicial enforcement proceeding, the court shall award such person reasonable attorney’s fees and costs.

In determining what amount of attorney’s fees is reasonable, the court shall consider the degree to which the relief obtained relates to the relief sought.

5 ILCS 140/11(i)
In assessing the civil penalty, the court shall consider in aggravation or mitigation the budget of the public body and whether the public body has previously been assessed penalties for violations of FOIA. Additionally, if the court determines that a public body willfully and intentionally failed to comply with FOIA, or otherwise acted in bad faith, the court shall also impose upon the public body a civil penalty of not less than $2,500 nor more than $5,000 for each occurrence.

In assessing the civil penalty, the court shall consider in aggravation or mitigation the budget of the public body and whether the public body has previously been assessed penalties for violations of FOIA.

5 ILCS 140/11(j)
Section 9.5 (a) (5 ILCS 140/9.5(a) (West 2011 Supp.)) states that “[a] person whose request to inspect or copy a public record is denied by a public body, except the General Assembly and committees, commissions, and agencies thereof, may file a request for review with the Public Access Counselor established in the Office of the Attorney General not later than 60 days after the date of the final denial.”
Section 9.5(c) of FOIA (5 ILCS 140/9.5(c) (West 2011 Supp.)) provides that "upon receipt of a request for review, the Public Access Counselor shall determine whether further action is warranted."
